

Foundations for Schoolwide Implementation of Equity-Centered, Trauma-Informed Practices

Schools and districts across the country are beginning a new year with myriad challenges and questions about how to support students, families, and staff. There is no question that the challenges of the last two years have surfaced a need to reexamine policies and practices as they relate to equity, mental health, and trauma. This professional development event is intended to provide schools and districts with the foundational knowledge related to equity, trauma, and trauma-informed practices in schools and multi-tiered systems of supports (MTSS). In addition, a goal would be to develop educators' foundational skills for the implementation of Trauma-Informed Practices in schools using an equity lens.

The presenter will be Dr. Gabrielle Hicks, Translational Researcher at Center on Education and Training for Employment (CETE), at Ohio State University.
